PROJECTS

Tripify - http://tripify-app.herokuapp.com/

Html | Css | React-Redux | Bootstrap | Flexbox | Firebase | MongoDB | Express | Google APIs | Geo Fire | Amazon S3

Search for trips created by other users or modify them. Create a trip by searching for places and adding waypoints. View previous, saved, and current trips. This app is a work in progress.

Anime-LunchBox - http://anime-lunchbox-app.herokuapp.com/

Html | Css | React-Flux | Bootstrap | Flexbox | Firebase | Express | Giphy API | Hummingbird API

Search for anime, add to favorites, watchlist or see a video preview of the anime. Details about anime are also available such as number of episodes, genre, rating, etc.

Memories Album - http://memoriesalbum.herokuapp.com/

Html | Css | React-Flux | Bootstrap | Flexbox | MySQL | Express | Microsoft Cognitive Services APIs

Search and add images to a polaroid styled album. Age and moods of photos are analyzed using Microsoft Cognitive Services APIs.

PokedexGo - https://migsadventure.github.io/PokedexGO/

Html | Css | jQuery | Bootstrap

Pokedex app for Pokemon Go. View pokemon stats, click on pokemon for sounds, and use the CP calculator to see how strong a pokemon will be.

SKILLS

Front-End
